

Mikasa becomes official partner of UD Oliveirense

Mikasa Sangyo has now become the official partner of the Portuguese football team UD Oliveirense.

The UD Oliveirense is a historic club team, founded in 1922, which in the 2011-12 season reached the last four in the prestigious 'Taça de Portugal' (Cup of Portugal). The club will be promoted to the second league from 2022, when it celebrates its 100th anniversary, and is expected to make further progress in the future. The team includes the well-known Japanese player Kazuyoshi "Kazu" Miura and Kotaro Nagata, who joined the team after transferring from the Yokohama FC youth team.

We were impressed by the ONODERA GROUP, which owns the team and Yokohama FC, and its commitment to providing opportunities for young people and children to play overseas, not only for current players but also for those who aspire to play in the future, and we decided to support them.
